## Complex issues call for focused solutions

### CONSTANTLY IN MOTION

The financial world is constantly in development as a result of fluctuations, innovations and changing legislation and regulations. Mazars is familiar with these developments and understands their influence on and opportunities for your organisation.

We often see that financial institutions facing specific and complex national or international issues not only require expert accountants and advisers. They also want professionals who are approachable, who understand your world and can think in terms of clear and focused solutions. Does that describe you too? Get to know Mazars Financial Services.

## MAZARS FINANCIAL SERVICES

Providing services for financial companies calls for specific expertise and experience. For this reason, the knowledge and experience within Mazars relating to this specialist field has been brought together in a single place: Mazars Financial Services.

Our professionals work for:

- Pension funds
- Banks
- Investment institutions
- Investment companies
- Finance companies
- Insurance companies

'I can only agree with your concerns regarding the false assumption that only the big four firms are able to audit large companies. The plan to progressively build an international audit firm with European origins is a worthy idea and I am convinced that it can be a success.'

## THE MAZARS APPROACH

Customisation is key. Rather than focus on legislation and regulations, we focus on finding tailored solutions. After all, you only see the value of your accountant or adviser when he / she offers you solutions to your specific challenges.

Mazars Financial Services works in an efficient, solution-driven manner and with short lines of communication: you always have a single contact person. The team is characterised by a relatively high degree of seniority, which means they have the necessary experience. Only then is it possible to deliver efficient and effective services.

## THE RESULT FOR YOUR ORGANISATION

Our added value lies in discovering opportunities for your organisation. Recognising opportunities begins with knowledge. In our work, we always take account of current developments which are or could become relevant. This is how we turn knowledge into opportunities!

## INTERNATIONAL NETWORK

Mazars is a worldwide integrated partnership with a global financial services team. As a result, we are able to serve international clients worldwide and also provide local players with the benefits of international experts. When particular specific knowledge is required, for example for the valuation of complex investment products, we draw on the expertise of our colleagues within the international Mazars Financial Services Group.

## DISTINCTIVE AND VALUABLE

Mazars is a challenger to the biggest accountancy firms in the segment comprising multinationals, stock exchange listed companies and financial enterprises. In recent years, Mazars Financial Services has experienced strong growth, which is not only explained by ambition and strategy. What our clients value in particular is our distinctive way of working.
